Independent Drivers to Petition Council Not to Enforce Ordinance.

Independent jitne auto drivers are circulating a petition asking the city council to reconsider the last jitne or-dinance and are also planning to form an independent association to fight the

dinance and are also planning to form an independent association to fight the ordinance.

The petitions are being circulated by a committee composed of E. R. Bennett, T. K. Eccles, B. Paimer, E. D. Shier and W. J. Corbett. A meeting has been called for Saturday morning in the chibrocoms of the County and City Democratic club, in the Coles building, and a permanest organization will be perfected, the committeemen say. The drivers say they have supployed attorneys to assist in the effort to prevent the ordinance from becoming a law.

The petition of the litre drivers claims that the ordinance regulating their business is "discriminating, unconstitutional and saginst public policy" One clause is especially objected to This is the one referring to the required of any other service, the petition says.

Other to Bond.

that it is discriminating because it is not required of any other service, the petition myz.

Object to Bond.

The section referring to the bond of \$1000 is also objected to by the independent drivers. They claim that "it is excessive, discriminating and prohibitory to a large number of the present owners of motor busses and that, if the section should became a law, it will encourage damage suits instigated by focs of the so-called litne service and add to the damage suit industry in such an extent that, the entire benefit to be derived by the citizens from the service will be denied and the passenger carrying motor busses will be forced out of business.

The men circulating the petition say they have no connection with any of the organized public service auto companies.
